

Untargeted Metabolomics

Έχουμε εκτενή εμπειρία στον τομέα, και έχουν αναπτυχθεί έμπιστα διαγράμματα ροής χρησιμοποιώντας τεχνολογίες αιχμής.

State-of-the-art LC-MS/MS Systems

Thermo Q Exactive™ HF-X et al.
Resolution up to 24,000, ensuring high spectral quality and accurate results.

01

Strict Quality Control System

Strict protocols governing the whole workflow.

02

03

Rich Experience In Large Sample Projects

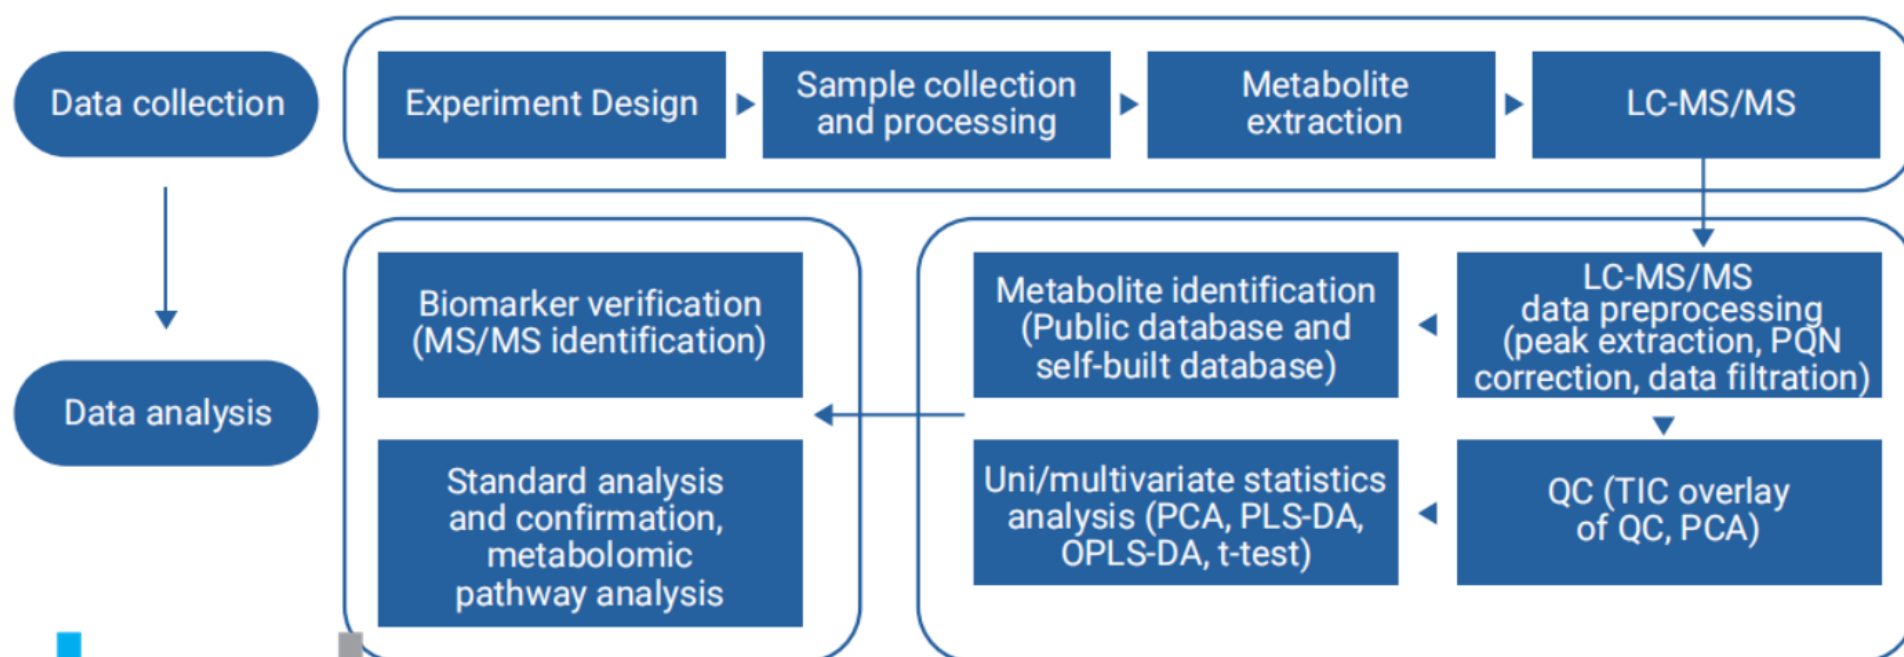

High throughput automated sample preparation. Real-time monitoring instrument detection process.

High-precision Identification Results

Self-built standard library +
Thermo mzCloud (30,000+).

04

Technical Workflow

Γιαννιτσών 31, 546 27, Θεσσαλονίκη
