

Project Description

The project was co-financed by the European Union and national resources under the "Central Macedonia" Action of the 2021-2027 ESPA Program, "Investment Schemes for Innovation." The project KMP6-0290626 aims to develop an innovative robotic system for measuring pH-EC in soil samples. The total budget of the project amounts to €290.250,00 and was implemented in the period from October 2021 to February 2025.
